

Howdy,

I need your help today. After a long space walk the solar radiation damaged the special paint I had all over my titanium body.

Please colour me again. My head should be coloured blue.

Then my communication devices

should be coloured yellow.

Please colour my arms orange, my fists red and my space gun black and grey. My torso has to be coloured green while my legs

blue. My magnetic boots must be coloured brown. Thanks a lot for your help and collaboration. I'm sure you'll do a great job.

Thanks!
