

Hello future Avenger,

I've been trying to improve my body armor since my last battle against Thanos. Unfortunately something went wrong in the lab. As you can clearly see I lost all the colours of my body armor. Now it's dull gray and white. It's lost all of its bright colours. So, could you please colour it again? I'll greatly appreciate your effort. In order to do a great job you should log on to the internet and find pictures of me. Then you'll see where my body armor is red, yellow, black or golden. Just to make a long story short I want you to know that I'm glad you're going to help me out.

Thanks in advance.

Yours truly,

*Tony Stark*
