

Hello dear Pokémon admirer,

I'm a light purple theropod-like pocket monster with stripes and markings of a darker shade and gray underarms and waist. I've got round purple-striped plates on my shoulder area, where two pink pearls lie encrusted with a gray rim encircling them and fins in their back. My arms have got extended formations

resembling gauntlets and a purple band around each

wrist. I've got a long neck, a pointed

white crest on the

top of my

head that

pearls, which allow me to fly very fast. I

warp space, though I can create alternate realities as well. I'm sure you'll colour

me accordingly. Thanks in advance for your kind help. I'll appreciate it.
