

Hello dear future Pokémon trainer,
 I'm Charmander. I'm a fire-type Pokémon. I evolve into Charmeleon and then into Charizard which is Rurik's favourite Pokémon. I'm a bipedal, reptilian Pokémon with a primarily orange body and blue eyes. My underside from the chest down and the soles of my feet are cream-colored. I've got two small fangs visible in my upper jaw and two smaller fangs in my lower jaw. A fire burns at the tip of my Pokémon's slender tail and has since I was born. I use the flame as an indicator of my health and mood, burning brightly when I feel strong, weakly when I'm exhausted, wavering when I'm happy, and blazing when I'm enraged.

You can find me in hot, mountainous areas. I'm sure you'll appreciate your help. Thanks!

I'm sure you've figured out that if the flame goes out, I'm dead. However, if the flame will continue to burn bit wet and it will rain.

I'm sure you'll colour me accordingly. I'll really appreciate your help. Thanks!
