

Dear Brawl Stars fan,
My name is Crow. I'm a Legendary Brawler and I can poison my enemies over time by throwing daggers at them. I've got a long range of attack but low health. My first Star Power, **Extra Toxic**, decreases the damage output of a poisoned brawler by 20% when they get hit and my second Star Power, **Carrion Crow**, adds 120 extra damage to my main attack and **Super** when an enemy is below 50% health when hit.
