

*Hello dear future archeologist,  
We're just a pair of fake flying  
pterosaurus. Scientists have named us  
pterodactylus which means  
"winged  
finger."*

*We're  
were  
which preyed  
upon fish and other  
small animals.  
I'm sure you'll  
us accordingly.*

*We  
don't  
exist  
anymore.  
extinct. We  
carnivores*
