

# A3 English Bags

I used to create computer viruses just for the fun of it. I've got a pair of military black boots, a blue scooter, a red bike, a leather briefcase, a cap, a pair of reading glasses, a red pencil sharpener, a one liter bottle of Fanta, plus a bag with a plunger and a feather duster in it.

Hi there, some people call me Dr. Spock but I'm not a doctor. I know my shit, there's no doubt about it. I've got a pair of rollerblades, a few artichokes, some bananas, a few peppers, an apple, a ring, a pencil sharpener, and three pineapples in a bag.
